In the same fiber family as Quince & Co's laceweight [Piper](#), **Crane** was developed with the idea of creating a luxe, single ply of superfine merino/superkid mohair blend in a versatile worsted weight. Paired with an arresting palette to suit its softness of character and silkiness of the resulting fabric's hand, [Crane](#) is irresistibly soft, warm, and seems to glow from within.

Not sure what to knit with Crane? The [Beatrice Shawl](#) uses 3 skeins.

The seven new colors of [Stone Wool Merino Romney](#) have arrived, bringing a heathery depth and lustrous width to the palette we didn't even know was missing until they arrived. This yarn, if you haven't had the chance to work with it before, is just. So. GOOD. It's crisp and wooly and soft and heathered and full of sheen and still smells like sheep. Which means, of course, it absolutely qualifies as a Desert Island Yarn. We don't sell Stone Wool direct online, but we're happy to take phone orders—call us at (231) 228-2800 and we'll ship these beauties wherever your heart desires.
