**NEW FROM FRINGE SUPPLY CO. :**  
**TWO BRAND NEW FIELD BAGS**

Perhaps the most exciting Fringe announcement we've ever made: not one but **TWO brand new Field Bags** have arrived in the shop. One is camouflage, one is black watch plaid and they're both waxed canvas. We've been keeping this secret for weeks and we're so excited to share

these amazing tools with you now.

*the original Field Bag in Natural*

These bags are handmade in Nashville, TN from sturdy waxed cotton canvas with a vegetable-tanned leather carry loop, which will age to a beautiful golden brown. This bag is designed to stand up, with a wide-open mouth. There is ample room for your yarn and knitting. And there are pockets! On one interior wall is a panel divided into one medium-sized pocket (perfect for your phone and/or small notebook) and three narrow pockets for needles, tools or writing implements. On the opposite interior wall is one long pocket, sized to hold a folded pattern.

*If you're not familiar with waxed canvas, please note that it is different than regular canvas in that it shows all of the scuffs and folds in the fabric --it's a sort of crackled surface that shifts and softens with time. That is the natural and desirable character of waxed canvas--a rugged, more weather-resistant type of project bag that's perfectly suited to Northern Michigan.*
